Thus giving children the authority to judge a situation and decide a verdict or determine a course of action in relation to a problem. It also serves as an opportunity to share the positive encounters between children and functionaries of the allied systems, like the police, health personnel etc. who otherwise traditionally share a relationship of mistrust. This helps not only in giving insights for improving the service, but also in building a relationship of trust with the child and strong up the relationship between the children's and CHILDLINE.
